

ZetaSafe®

Flexible

Manage all compliance areas

Intuitive

Simple to use & easy to customise

Efficient

Rapid performance & intelligent workflows

Quality, Safety,
Compliance & Data Solutions

Collect, Manage & Share

Accurately and efficiently schedule, collect, manage and share business critical compliance data – through the use of cloud and mobile technologies.

Input ad hoc or scheduled checks, inspections and test results from equipment/assets using a smartphone, tablet, PDA or desktop.

Immediate alerts with warnings, failures and history. Ability to add supporting comments and/or photos.

Synchronise data securely with the ZetaSafe cloud, where actions are prioritised and escalated.

Information is accessible 24/7 for intelligent analysis via customisable dashboards. Highlight trends and priorities, create reports and simplify scheduling.

Consolidate data and trends across multiple sites, giving enterprise wide visibility for key partners and other stakeholders.

Integrated Cloud Compliance Solutions

ZetaSafe is flexible and can be used to manage **ANY** checks required by your internal standards, government legislation or industry best practice.

Water Hygiene

Fire Safety

Emergency Lighting

Lifts & Lifting

Gas & Electrical

Security Checks

Lab QA

Routine Checking

Custom Solutions

Why ZetaSafe?

Peace of mind for 'Responsible Executives'

Comply with SFG20, HSG274, HTM 04-01 & Regulatory Reform Order 2005.

Streamline operations & enhance efficiencies

Financial and environmental benefits from maintaining your assets in an optimum condition.

Customise to meet your specific needs

Configure ZetaSafe to collect, manage and share all types of business critical data.

Direct integration with Qube Planet FM

Use ZetaSafe compliance software independently or alongside many CAFM, Property, FM & PPM systems.

Compliance for ALL Sectors

ZetaSafe enables **Estate, Asset, Facilities and Health & Safety Managers** to protect the people, places, assets and reputation at 1000+ organisations.

Education

Healthcare

Government &
Social Housing

Hotels & Leisure

Retail

Food & Beverage

Manufacturing

Construction

ZetaSafe also arms many major service providers with the platform they need to meet the safety, compliance and asset productivity needs of their clients, as well as their own performance and compliance management.

Clients include

Tailored Professional Services

We provide a full range of services, from basic implementation support to advanced training and data acquisition services.

Go Live and Set Up

Take advantage of our professional services team who can configure ZetaSafe to ensure you are up and running seamlessly.

Training

We offer tailored training packages to ensure all staff are aware of the latest functionality.

Optimise & Configure

We can help you ensure ZetaSafe is configured in accordance with the latest guidance and legislation, through system health checks, data tidy ups and the use of workflows and automated reporting.

Software Integration

ZetaSafe's APIs allow integration with third party application systems - such as CAFM, Property, FM and PPM Systems like Qube's Planet FM.

Become even leaner

Streamline your operations further and use ZetaSafe to manage other areas of compliance such as fire safety assets, emergency lighting or air conditioning unit checks.
